UPCOMING CALLS/EVENTS

Ambient Air Quality/EPA/NTAA/Tribes

Using its Clean Air Act authority, EPA is issuing a 90-day stay of the fugitive emissions, pneumatic pumps, and professional engineer certification requirements from the 2016 New Source Performance Standards for the oil and natural gas industry. Sources do not need to comply with these requirements while the 90-day stay is in effect. As part of a reconsideration process, we expect to prepare a proposed rule, which will allow for public comment.

A news release will be going out soon. Additional information on the stay and reconsideration: <https://www.epa.gov/controlling-air-pollution-oil-and-natural-gas-industry>

NTAA Upcoming Calls. The toll-free number is 1-800-309-2350. If you do not need to call toll free, or would like to help conserve NTAA funding, you can call 1-805-309-2350. Both numbers use code 928-523-0526#.

Contact Elaine.Wilson@nau.edu if you have any questions about any call!

The U.S. Environmental Protection Agency is seeking nominations for technical experts to serve on its Board of Scientific Counselors (BOSC), a federal advisory committee to the Office of Research and Development (ORD). The BOSC provides independent scientific and technical peer review, consultation, advice, and recommendations for each of its research programs.

- Information on the BOSC can be found [here](#).
- Information on ORD's research can be found [here](#).

Individuals and organizations can nominate themselves or others by using the [nomination form](#) on the BOSC website. The nomination period is open until June 30, 2017.

Details regarding areas of expertise sought, process for submitting nominations, and selection criteria can also be found in the [Federal Register](#). Please contact the BOSC Designated Federal Officer, Tom Tracy (tracy.tom@epa.gov), for assistance.

Access & Awareness Webinar Series from the Federal Interagency Working Group on Environmental Justice (EJ IWG) "Partnership in Progress - Community-Based Collaborations for Environmental Justice in Portland, Oregon"

Wednesday, May 31st, at 1:00pm - 2:30pm ET. [Register Here](#)

Environmental and public health impacts affect people most significantly where they live - at the community level. One of the themes of the Environmental Protection Agency's (EPA) Strategic Plan for Fiscal Years 2014-2018 is to make a visible difference in communities across the country. These efforts are focused on providing better support to communities, especially economically distressed areas where the needs are greatest.

In addition, we will learn about how the U.S. Department of the Interior (DOI) is becoming more actively involved in the area of environmental justice. DOI's Regional Environmental Officer for the Pacific Northwest, Allison O'Brien, will discuss the Department's efforts, as well as the expertise DOI bureaus have to offer. EPA's College/Underserved Community Partnership Program (CUPP) Manager, Michael Burns, who is currently detailed to DOI, will join the presentation to talk about the work he is doing to develop partnerships among agencies, schools, the private sector, nonprofit organizations, and underserved communities.

"Partnership in Progress - Community-Based Collaborations for Environmental Justice in Portland, Oregon"

- **Date:** 05/31/2017
- **Time:** 1:00pm - 2:30pm Eastern
- **Register Here:** <https://www.eventbrite.com/e/partnership-in-progress-supporting-underserved-communities-in-portland-oregon-tickets-33060662331>

Once you register, you will be emailed with information on how to access the webinar. If you have any questions, please contact [Jeanine Finley](#) for additional information.

U.S. EPA's National Enforcement and Training Institute (NETI) is offering courses that are open to federal, tribal, state, and local government environmental compliance and enforcement personnel. NETI offers live broadcast and on-demand training covering virtually every environmental media and issue that confronts compliance monitoring and enforcement personnel.

Additional information is available on the [NETI website](#).

EPA Office of Water announces participation opportunities and activities related to the Safe Drinking Water Act and Clean Water Act.

- **Tribal Consultation Opportunity: Forthcoming Proposal to Revise the Definition of "Waters of the United States"**

Tribes will have until June 20, 2017, to comment on the new definition. To stay up to date on this effort, please visit EPA's Tribal Consultation

website: <https://tcots.epa.gov>. For more information, see the [EPA's Clean Water Rule website](#).

- **Registration Open for the 2017 Tribal Lands and Environment Forum (TLEF).**

This year's Tribal Lands and Environment forum will be held at the COX Business Center in Tulsa, Oklahoma, August 14-17, 2017. The Forum will feature trainings, field trips, and breakout sessions focused on solid/hazardous waste management, brownfields, UST/LUSTs, Superfund sites, and emergency response. Tribal water program topics will include breakout sessions, trainings, and field trips related to water quality, drinking water, and habitat restoration (including wetlands, streams, and fisheries). Registration for the event is now open. For more information and to register: http://www7.nau.edu/itep/main/Conferences/confr_tlef.

The U.S. EPA 2017 International Emission Inventory Conference will be held at the Hyatt Regency Baltimore on the Inner Harbor Hotel in Baltimore, MD August 14-18, 2017. This conference will focus on how emission inventories meet the challenges posed by improving emissions inventory science and also streamline inventory creation processes to improve the resulting inventories. [Click here](#) to learn more about the conference and how to submit abstracts.

ITEP's Climate Change Adaptation Training Courses registration is now online! [Learn more about the courses and register here.](#)

The Institute for Tribal Environmental Professional's (ITEP's) [Tribes and Climate Change Calendar](#) includes conferences, trainings, webinars and other events related to tribes and climate change. [Click here](#) for ITEP's other trainings and events.

ITEP's [2017 AIAQTP Course Schedule](#)

Course Title	Dates	Location
2017		
Introduction to Tribal Air Quality	June 6-9	Flagstaff, AZ
Reviewing NSR and Title V Permits	July 11-14	Fargo, ND
Quality Assurance (QA) Fundamentals	Open	Online

Building Performance: Improving Energy Efficiency & IAQ in Cold Climates	Open	Online
Radon Fundamentals	Open	Online
Emissions Inventory - Fundamentals	Closed	Online
Emissions Inventory - Advanced	Closed	Online
Wildfire and Air Quality	Dates TBD	Online

Note: This schedule is subject to change. [Click here](#) for up-to-date information, course descriptions, and applications. If you have questions regarding the pre-requisites or your eligibility for this course, please contact Patricia Ellsworth, Air Quality Curriculum Coordinator, at Patricia.Ellsworth@nau.edu or phone 928-523-6721. For more information, please visit [ITEP's website](#).

Climate Change / Energy

Southwestern Tribal Climate Change Summit

The La Jolla Band of Luiseno Indians, Institute of Tribal Environmental Professionals and the University of San Diego are collaborating on the 2017 Southwestern Tribal Climate Change Summit.

Event: *2017 Southwestern Climate Change Summit*

Location: *University of San Diego*

When: *September 19-21, 2017*

More information including registration details will be provided in the near future.

If you have any questions, please direct them to: Nikki.Cooley@nau.edu

HUD webinar: What Energy Project is Right for My Tribe?

Date: May 31

Attendees will learn how to identify the appropriate energy project, whether it's a small renewable energy project for a single tribal residence or building, a tribal community project, or a utility-scale project requiring transmission interconnection and off-take through a power purchase agreement. Speakers will explore the pros and cons of ownership and leasing, the differences among various renewable and conventional technologies, and potential project barriers. Speakers will also share information on tools and resources available to help tribes evaluate options and move forward. To register, [click here](#).

Toxic / Mobile Sources

Indoor Air Quality

The Region 9 Tribal Indoor Air Quality (IAQ) and Health Network brings you *Using IPM to Control Bedbugs in Tribal Communities*, a webinar on Thursday, June 1, 2017 at 11:00 AM – 12:30 PM PDT.

Please use the following link to register: <https://attendee.gotowebinar.com/register/1865947481169314563>

The webinar is a collaboration between US EPA Region 9 and the Institute for Tribal Environmental Professionals (ITEP). Experienced presenters will share their experiences about using Integrated Pest Management to Control Bedbugs in Tribal Communities. At the end of the webinar, participants will have an opportunity to ask presenters questions and to share approaches that have worked in their communities.

Questions about this webinar? Please contact Priyanka Pathak (pathak.priyanka@epa.gov) or Mansel Nelson (mansel.nelson@nau.edu).

The Federal Interagency Committee on Indoor Air Quality (CIAQ) will hold its next public webinar meeting on Wednesday, June 7, 2017, beginning at 1:00 p.m. EDT.

We are honored to have Dr. Andrew Persily of the National Institute of Standards and Technology as our guest speaker for the webinar. Dr. Persily will present on recent work on estimating rates of carbon dioxide generation by people.

Webinar registration: attendee.gotowebinar.com/register/376384103635526403.

For audio, participants should call toll-free 855-637-8650 and provide the operator with the conference ID (24963012) when prompted.

If you would like to make an IAQ- or IED-related presentation to the Committee and webinar audience in the future, please send a brief proposal to ciaq@epa.gov and include your contact information.

Collaborative Planning Program Position Announcement

Ambient Air Quality/EPA/NTAA/Tribes

Wildland Fire Sensors Challenge

Six federal agencies have announced a Wildland Fire Sensors Challenge seeking an accurate, lower-cost, and low-maintenance air quality monitoring system that can be used during a wildfire or controlled fire. The data provided by the sensor system will help federal, state, local and tribal agencies protect the health of first responders and communities affected by the smoke.

Developers are encouraged to submit a prototype sensor system that measures fine particulate matter (PM2.5), carbon monoxide (CO), ozone (O3) and carbon dioxide (CO2). The system should be capable of rapid deployment and continuous real-time monitoring of highly dynamic air pollution levels during a fire event. Developers should also aim for designs that are easy to use and self-powered; include location data; and wirelessly transmit data to a central data-receiving station.

Written submissions are due by **Nov. 22, 2017** and prototypes must be submitted by **Jan. 5, 2018**. The sensor systems will be evaluated in government specialty labs based on 1) accuracy over a wide range of pollutant levels, 2) system cost, and 3) operation requirements relevant for wildland fire deployment. All developers who submit prototypes will receive direct feedback on laboratory tests and end user review.

The Challenge total award pool is \$60,000, which may be awarded in total to one winner if all the requirements are met, or divided into several partial awards. Prize winner(s) will be selected following the conclusion of judging in summer 2018.

To learn more, visit: www.challenge.gov/challenge/wildland-fire-sensors-challenge

FUNDING OPPORTUNITIES

Ambient Air Quality/EPA/NTAA/Tribes

EPA Issues Request for Proposals (RFP) for FY17 and FY18 Tribal Wetland Program Development Grants. Proposals are due June 5, 2017.

Wetland Program Development Grants (WPDGs) assist state, tribal, local government (S/T/LG) agencies and interstate/intertribal entities in developing or refining state/tribal/local programs which protect, manage, and restore wetlands. The primary focus of these grants is to develop/refine state/tribal wetland programs. EPA has issued a RFP soliciting proposals from eligible applicants to develop or refine tribal wetland programs. Tribes and intertribal consortia are eligible to apply under this announcement. Non-profit organizations are not eligible to compete under this RFP. The total amount of federal funding available under this announcement is approximately \$2,644,800 (\$1,191,800 expected from FY17 and \$1,453,000 expected from FY18) depending on Agency funding levels, which may vary from year to year, and other applicable considerations. Awards will likely range from \$25,000 to \$300,000 in federal funds. It is anticipated that the assistance agreements awarded under this announcement will have one- to four-year project periods starting after October 1, 2017. The project period for assistance agreements under this announcement may be no more than four years. For more information and to view the RFP: <https://www.epa.gov/wetlands/tribal-wetland-program-development-grant-request-proposals>. For questions, please contact Myra Price at price.myra@epa.gov.

FY 2017 Economic Development Assistance Programs, Department of Commerce

Full details [here](#)

There are no submission deadlines under this opportunity.

Funding range: \$100,000 to \$3,000,000

The Economic Development Administration (EDA) solicits applications from applicants in rural and urban areas to provide investments that support construction, non-construction, technical assistance, and revolving loan fund projects under EDA's Public Works and Economic Adjustment Assistance programs. Grants and cooperative agreements made under these programs are designed to leverage existing regional assets and support the implementation of economic development strategies that advance new ideas and creative approaches to advance economic prosperity in distressed communities. EDA provides strategic investments on a competitive-merit-basis to support economic development, foster job creation, and attract private investment in economically distressed areas of the United States. There are no submission deadlines under this opportunity. Proposals and applications will be accepted on an ongoing basis until the publication of a new Economic Development Assistance Program Federal Funding Opportunity announcement.

U.S. EPA Air Grants and Funding:

EPA's Office of Air and Radiation (OAR) announces competitive funding announcements for projects and programs relating to [air quality](#), [transportation](#), [climate change](#), [indoor air](#) and other related topics. [This page](#) provides access to information about current funding opportunities under 'Open Announcements' and also provides as a reference tool, all previously announced funding announcements listed below and in archives under 'Closed Announcements.'

Climate Change/Energy

Clean Diesel Funding Assistance Program FY 2017, Environmental Protection Agency

Full details [here](#)

Applications close July 20, 2017.

Award Ceiling: \$2,500,000

EPA's Office of Transportation and Air Quality is soliciting proposals nationwide for projects that achieve significant reductions in diesel emissions in terms of tons of pollution produced by diesel engines and diesel emissions exposure, particularly from fleets operating at or servicing goods movement facilities located in areas designated as having poor air quality. Further, priority for funding may be given to

projects which result in outcomes that benefit affected communities, those that engage affected communities with respect to the design and performance of the project, and those which can demonstrate the ability to promote and continue efforts to reduce emissions after the project has ended. Eligible entities include regional, state, or local agencies, tribal governments (or intertribal consortia) and native villages, or port authorities, which have jurisdiction over transportation or air quality, and nonprofit organizations or institutions that: a) represent or provide pollution reduction or educational services to persons or organizations that own or operate diesel fleets or b) have, as their principal purpose, the promotion of transportation or air quality.

Toxics/Mobile Sources

Attention Region 9 Tribes:

Free Technical Assistance to Communities for Brownfields Sites EPA Region 9 Targeted Brownfields Assessment Program Soft Deadline – June 9, 2017

EPA provides contractor assistance to research historic property uses, conduct environmental sampling and identify cleanup options and cost estimates. By submitting a short, on-line application, public entities, nonprofits and tribes can access up to \$100,000 worth of technical assistance for eligible sites. At no cost to the applicant, EPA contractors evaluate whether a property is contaminated and provide follow-up recommendations.

EPA is currently accepting applications with a soft deadline of June 9, 2017. This is an easy, online application. A new requirement is to submit a [site access consent](#) form with the application.

For more information, please click on the following hyperlinks for our [website](#), [brochure](#) and [application](#).

Federal Transit Administration Low or No Emission Bus Discretionary Grant Program

Funds will be awarded competitively for the purchase or lease of low or no emission vehicles that use advanced technologies for transit revenue operations, including related equipment or facilities. Projects may include costs incidental to the acquisition of buses or to the construction of facilities, such as the costs of related workforce development and training activities, and project administration expenses.

Application deadline is June 26, 2017. [More information can be found here.](#)

DERA Funding Available: 2017 Clean Diesel Funding Assistance Program

Deadline for Proposals - June 20, 2017

The U.S. Environmental Protection Agency (EPA) is excited to announce the availability of \$11 million in Diesel Emission Reduction Program (DERA) funds to support projects aimed at reducing emissions from the nation's existing fleet of older diesel engines. Under this competition, between 20 and 80 awards are anticipated to be made to eligible applicants.

Eligible applicants include regional, state, local or tribal agencies, or port authorities, with jurisdiction over transportation or air quality. Nonprofit organizations may apply if they provide pollution reduction or educational services to diesel fleet owners or have, as their principal purpose, the promotion of transportation or air quality.

Learn More at: www.epa.gov/cleandiesel/clean-diesel-national-grants.

If you have questions, please contact cleandiesel@epa.gov.
